Deeply disturbed at the continuing use of napalm and other incendiary weapons,

1. **Condemns** the use of napalm and other incendiary weapons in armed conflicts in circumstances where it may affect human beings or may cause damage to the environment and/or natural resources;

2. **Urges** all States to refrain from the production, stockpiling, proliferation and use of such weapons, pending the conclusion of agreements on the prohibition of these weapons;

3. **Invites** all Governments, the International Committee of the Red Cross, the specialized agencies and the other international organizations concerned to transmit to the Secretary-General all information about the use of napalm and other incendiary weapons in armed conflicts;

4. **Requests** the Secretary-General to prepare a report on this subject, based on information received under paragraph 3 of the present resolution, to be submitted to the General Assembly at its thirtieth session.

**General Assembly Resolution 3256 (XXIX): Chemical and Bacteriological (Biological) Weapons, December 9, 1974**

---

**The General Assembly,**

**Convinced** that the process of détente in the world is conducive to the implementation of further disarmament measures and of general and complete disarmament under effective international control,

**Stressing** the contribution that early agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction would make to general and complete disarmament under effective international control,

**Recalling** that it has repeatedly condemned all actions that are contrary to the principles and objectives of the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925,

Continuing use of napalm and other incendiary weapons in areas where it may affect human beings and other living resources; from the production, stockpiling, proliferation, pending the conclusion of agreements; the International Committee of the Red Cross and the other international organizations; the Secretary-General all information on other incendiary weapons in armed conflicts to prepare a report on this subject, under paragraph 8 of the present resolution, for the Assembly at its thirtieth session.

General Assembly Resolution 3256 (XXIX): Chemical and Biological Weapons, December 9, 1974

Detente in the world is conducive to the general and effective international control, early agreement on the complete prohibition of all chemical weapons and on their elimination from the arsenals of all States; condemned all actions that are contrary to the Protocol for the Prohibition of the Use, Stockpiling, Production and Research into Chemical Weapons and on Their Destruction; signed at Vienna on 27 March 1925.

1. Reaffirms the objective of reaching agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from the arsenals of all States;

2. Urges all States to make every effort to facilitate agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their destruction;

3. Requests the General Assembly of the United Nations to continue negotiations as a matter of high priority, bearing in mind existing proposals, with a view to reaching early agreement on effective measures for the complete prohibition of the development, production and stockpiling of all chemical weapons and for their destruction;

4. Invites all States that have not yet done so to sign and ratify the Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare, signed at Geneva on 17 June 1925, in the course of 1975 in commemoration of the fiftieth anniversary of its signing, and calls anew for the

Reaffirming the need for the strict observance by all States of the principles and objectives of that Protocol.

Convinced that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction constitutes an important step towards agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from the arsenals of all States;

Recalling, in this connexion, the undertaking contained in article IX of the Convention to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of the development, production and stockpiling of chemical weapons and for their destruction.

Having considered the report of the Conference of the Committee on Disarmament;

Noting that draft conventions on the prohibition of the development, production and stockpiling of chemical weapons and on their destruction as well as many other working documents, proposals and suggestions have been submitted to the Conference of the Committee on Disarmament.

Desiring to contribute to the successful conclusion of negotiations on effective measures for the complete prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,
strict observance by all States of the principles and objectives contained therein;

6. Requests the Secretary-General to transmit to the Conference of the Committee on Disarmament all documents of the First Committee relating to questions connected with the problem of chemical weapons and chemical methods of warfare;

7. Requests the Conference of the Committee on Disarmament to report on the results of its negotiations to the General Assembly at its thirtieth session.

General Assembly Resolution 3257 (XXIX): Urgent Need for Cessation of Nuclear and Thermonuclear Tests and Conclusion of a Treaty Designed to Achieve a Comprehensive Test Ban, December 9, 1974

The General Assembly,

Gravely disturbed at the continuance of nuclear weapon testing since the twenty-eighth session of the General Assembly,

Recalling its previous resolutions on the subject,

Recalling the stated aim of the parties to the Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and Under Water and the Treaty on the Non-Proliferation of Nuclear Weapons to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time,

Taking note of the special report of the Conference of the Committee
