Convinced that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction constitutes an important step towards early agreement on the effective prohibition of the development, production and stockpiling of all chemical weapons and on their elimination from arsenals of all States,

Recalling in that connexion the undertaking contained in article IX of the Convention to continue negotiations in good faith with a view to reaching early agreement on effective measures for the prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,

Stressing the importance of early agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, which would contribute to general and complete disarmament under effective international control,

Noting the risk of continued development, production and stockpiling of chemical weapons in the absence of such agreement,

Having considered the report of the Conference of the Committee on Disarmament,

Noting that drafts of a convention on the prohibition of the development, production and stockpiling of all chemical weapons and on their destruction, as well as other working documents, proposals and suggestions, have been submitted to the Conference of the Committee on Disarmament and constitute valuable contributions to reaching appropriate agreement,

Noting that sustained and intensive efforts in the Conference of the Committee on Disarmament have led to increased understanding in identifying practical approaches towards the prohibition of the development, production and stockpiling of all chemical weapons and towards their destruction,

Recognizing the importance of developing methods for providing adequate assurance of compliance with effective measures for the prohibition of the development, production and stockpiling of all chemical weapons, including methods of verifying the destruction of stockpiles of such weapons,

\[\text{Footnotes:}\]

Having in mind that agreement on the complete prohibition of the development, production and stockpiling of all chemical weapons and on their destruction should not impede the utilization of science and technology for the economic development of States,

Desiring to contribute to an early and successful conclusion of the negotiations on effective and strict measures for the complete prohibition of the development, production and stockpiling of all chemical weapons and for their destruction,
