Nonproliferation

Joint Statement on Nonproliferation

The United States of America and the Union of Soviet Socialist Republics oppose the proliferation of nuclear weapons, chemical weapons, missile technology, and related equipment. They believe that such proliferation undermines international peace and security.

The United States and the Soviet Union agree:

- To work together to stop the spread of nuclear weapons, chemical weapons, and missile technology.
- To encourage other nations to join in this effort.
- To strengthen the Non-Proliferation Treaty and the Chemical Weapons Convention.
- To promote international cooperation in the peaceful uses of nuclear energy.

Missile and Chemical Weapons

Joint Statement on Chemical Weapons

The United States and the Soviet Union agree:

- To work together to stop the proliferation of chemical weapons.
- To encourage other nations to join in this effort.
- To strengthen the Chemical Weapons Convention.
- To promote international cooperation in the peaceful uses of nuclear energy.

Conventional Forces

Joint Statement on CONVENTIONAL

The United States and the Soviet Union agree:

- To work together to stop the proliferation of conventional arms.
- To encourage other nations to join in this effort.
- To strengthen the Intermediate-Range Nuclear Forces Treaty.
- To promote international cooperation in the peaceful uses of nuclear energy.

Nuclear Testing

Summary of Verification Protocols for the Threshold Test Ban Treaty (TBT) and Peaceful Nuclear Explosions Treaty (PNET)

Both the TBT and PNET protocols have 15 sections and are 42 pages long. The TBT includes protocols on on-site inspection, hydrodynamic yield measurement, and some seismic monitoring on the territory of the testing party.

Threshold Test Ban Treaty

The Threshold Test Ban Treaty (TTBT) prohibits underground nuclear explosions for the purposes of testing. The treaty requires on-site inspections, hydrodynamic yield measurement, and some seismic monitoring on the territory of the testing party.

Peaceful Nuclear Explosions Treaty

The Peaceful Nuclear Explosions Treaty (PNET) prohibits underground nuclear explosions for peaceful purposes. The treaty requires on-site inspections, hydrodynamic yield measurement, and some seismic monitoring on the territory of the testing party.
